

‘NUFF SAID’

I'm quite certain that I'm not the only one that is not looking forward to the year 2020 in review. Each year I've always gotten a kick out of looking back through the ending year and enjoying and appreciating the changes that took place. Not This Year! I did good to hang on the 2020 ride the first time around. I sure don't want a re-ride! What a year for the Unexpected! Just about everything that took place was "unexpected". Now, after saying all that, I have no intention of reminding anyone of what I'm talking about. If you don't know, then you are highly blessed, and I don't want to mess up your blessing. So let's focus on the positive possibilities for 2021.

It certainly would be a positive for everyone if the Christians would dedicate a portion of our daily prayer time, asking God to intervene in the affairs of our nation. If this statement reminds you that you have not been practicing a daily prayer time, then, it's a great open Spirit opportunity to recommit your life to prayer. God has spoken often in His Holy Word about what He will do - **"If My People"**. It has never been in question that God will answer our prayers. The **"IF"** belongs to us. Many Christians walk around making statements beginning with - "If only God". There's no **"IF"** when it comes to God's promise of action. "God Will Act", if His people "Will Ask". There is no **"IF, ANDS or BUTS"** about it. So, **IF** you feel that God's not acting enough in our broken Government, broken Families, broken Hearts, broken Spirits, broken Minds, - just maybe **"IF"** you would ask Him in prayer, Believing, then the whole world will witness God's Hand in action. When it comes to God fulfilling His promises of action in the affairs of man, eliminate the **"IF"** from your statements concerning Him. **"NUFF SAID"**.
